RICOH AP1400

A proud addition to the RICOH® family of award-winning digital products—the Ricoh AP1400 desktop office printer—now offers the high-quality and high-reliability from the leader in digital output.

A very efficient office printer, the Ricoh AP1400 can:

► Connect directly to a PC
► Connect to a network for shared printing

The Ricoh AP1400 provides:

► Speeds up to 14 pages per minute
► Print resolution up to 1200 dpi
► A 133 MHz RISC-based controller
► Convenient paper and envelope feed options

System Design

The Ricoh AP1400 desktop office printer is also part of Ricoh's Aficio Digital Imaging System product line, which features a system design that helps you maximize your work efficiency. When connected to a network, the AP1400 works with the **Ricoh Aficio™ Manager,** our unique client software that monitors the status of your Ricoh printer (not just the Ricoh AP1400 but any member of the product line). You can view status information—for example, printer in use, low toner supply, or paper jam—right from your desktop, simply by clicking on an icon that's displayed on your Windows™ taskbar.

An administrator version of Ricoh Aficio Manager provides:

► Comprehensive monitoring of all Ricoh printers on the network

► The ability to group the printers to best manage the task of printing in the office environment

The Ideal Solution

The Ricoh AP1400 desktop office printer gives you enhanced capabilities now, plus the ability to grow as you need—no matter whether you connect it to a single PC or make it part of a network printing system. But what else would you expect from Ricoh? Ricoh—the leader in digital output.
